

a major problem with **Greek** URLs at Geogebra site

GeoGebra

Internal Server Error

Sorry, it looks we're having server problems! We are working hard to bring everything back to normal as soon as possible!

This message has been displayed since 20/02/2021, when we use an external link to an address in Geogebra site.

for example try the following URLs:

- <https://www.geogebra.org/m/tsbvqjpm>
- <https://www.geogebra.org/m/ycnp73tp>
- <https://www.geogebra.org/m/edPZUPjc>

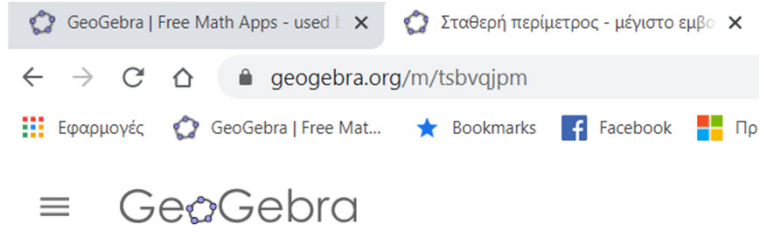

**on any browser with
clear history and on
mobile devices too**

GeoGebra

Internal Server Error

Sorry, it looks we're having server problems! We are working hard to bring everything back to normal as soon as possible!

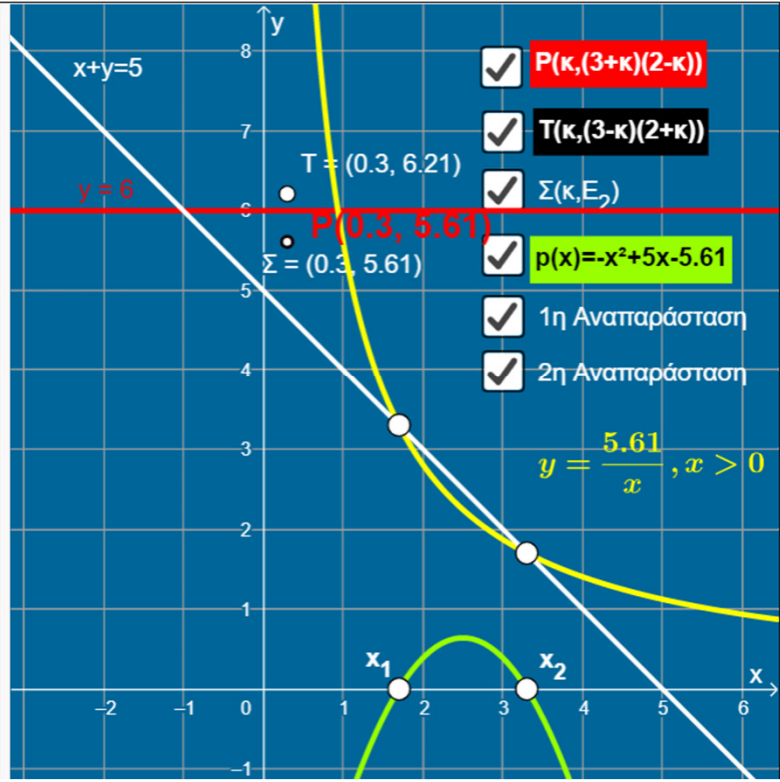

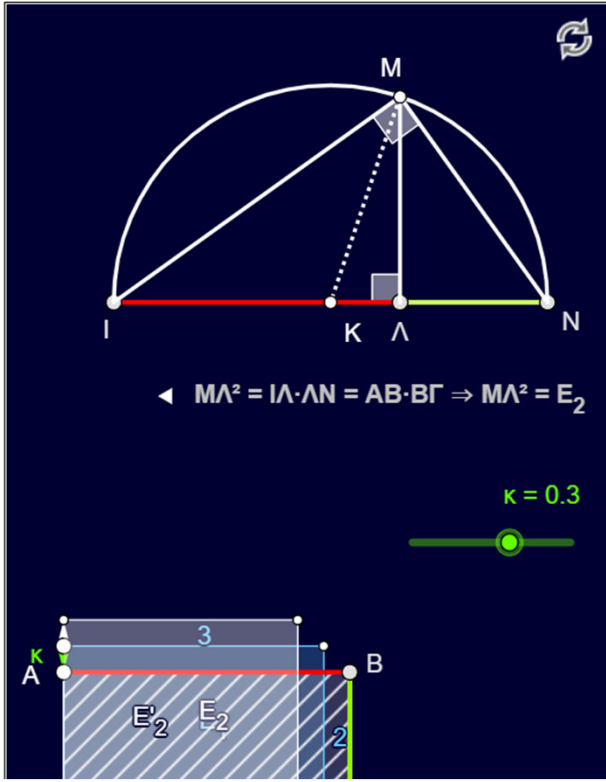

the problem stops if previously a tab with the home page of Geogebra was opened

Please explain to us what can happen and there is this important problem which has created significant problems for the students of our schools

Please for your answer and especially your help in solving the problem

Many thanks for your undertsunding and your great work!
